Setting up Network pricing contracts

To setup Network pricing contracts,

1. Click on the **Admin** tab.
2. Ensure the **Practice** option is highlighted.
3. Select '**Network pricing contracts**'.

The screenshot shows the 'Admin' tab selected in the top navigation bar. In the left sidebar, the 'Practice' option is highlighted. The main content area shows the 'Network pricing contracts' sub-tab selected, displaying a form for practice details. The form includes fields for Practice name, Billing practice no., VAT no., Company reg. no., Status, and Select main branch. There are also dropdowns for Practice type and Speciality, and a date field for VAT effective date. A 'Write-off threshold' field is set to R 50.00. A 'Save' button is at the bottom right.

This will open the '**Network pricing contracts**' window where you are able to select which contracts you have in place and the date range that the contract is valid for.

Select which schemes you have a contract for and customise the fields in the row for that schemes contract.
